

Sugar Plain Friends Church 1840

A church record is more than names, dates and happenings. It is about people-- what they did, the how and why of their lives. All of us know something about the people attending our meeting now. We enjoy hearing them share about their victories and blessings, and we certainly are touched by their times of disappointment and heartaches. Yet the knowledge of our church family does not often go beyond those members we actually know. Few of us have been privileged enough to have known individuals who had a great spiritual impact upon our meeting in the past. If you want to find out about your church family the place to start is with old church records. This recorded history is written to help our church identify and communicate with living members of our church.

Our church family has a unique heritage date back to 1827. From the records you will discover who gave us our start. Why certain names are prominent in our community and church. What were some of the accomplishments of Sugar Plain. For most of us, this interest has never gone beyond the level of idle curiosity. Not because we are not interested--- what could be more fascinating than to trace ones spiritual heritage. But where does one begin to look? For a start let's look at who attended Sugar Plain Friends Church.

Sugar Plain Friends Church

Sur Name	ID	First Name	Birth Date	Death Date	Burial Place
